INDEX TO ARTICLES

A QUESTION OF LAW

The cost of contractors, by S. Elliott 190
Instruct your staff, by S. Elliott 255
Dangerous parts, by S. Elliott 355
The cost of life and limb, by S. Elliott 381
Contributory negligence, by S. Elliott 426

CONFERENCES AND EXHIBITIONS

Conference report on the weldability of structural and pressure vessel steels 31
Preview of the International Welding and Metal Fabrication Exhibition 155
Engineering 71' – A national event 251

CONSTRUCTION

TIG welding aids biological research, by K. R. Spiller 52
A problem of distortion, by M. Page 55
Automatic line welds profile beams for tankers
Brazing precious and refractory metals, by P. M. Roberts 118
Flowline builds tunnel tubes, by M. Page 140
A steel chimney in trouble 145
Lamellar tearing in bridge girders – a case history, by F. M. Burdekin 205
To make two sea-going drill rigs: slice a ship in half, by M. Page 210
Cutting and forming precise bifurcations, by M. Page 319

DESIGN

The use of crack initiation and growth data in the calculation of fatigue lives of specimens containing defects, by A. R. Jack and A. T. Price 416
Association between service failures and fillet profiles of tube stub-header weldments, by T. Boniszewski and G. H. Eldridge 433

ECONOMICS, MANAGEMENT, AND OPERATIONS

Testing angle grinding discs, by M. G. Phillips 15
An introduction to arc welding economics – Part 5, Welding economics, by D. K. Powell 56
Fatigue pre-cracking weldment fracture mechanics specimens, by M. G. Dawes 61
Planning resources with critical path analysis, by D. W. Taylor 108
Fume extraction when welding zinc coated steels, by E. N. Gregory 112
Critical path analysis for cost and budgetary project control, by D. W. Taylor 213
Economic efficiency – terms, criteria, requirements, by G. Aichele 277
Process selection by economic analysis, by M. V. Nolan 281
Standard costing and budgetary control, by D. W. Taylor 312
N-C profiling centre reduces fabrication costs, by M. Page 314
Production control, by D. W. Taylor 348
Stock control, by D. W. Taylor 384
Incentive begins at the top, Part 1, by M. Page 422
Incentive begins at the top, Part 2, by M. Page 457

EDUCATION AND TRAINING

Certification scheme for weldment inspection personnel: Document No. CSWIP-RAD-3-71 147
Training today, by J. W. Davies 149
Training today, by D. Plumb 346
Training today, by R. C. Dobbs 382
Training today, by J. Hannah 420

FABRICATION PROFILE

Special fabrication – a progressive approach, by M. Page 78
Finished end products in key to rapid growth 363

INTERVIEWS

The Editor talks to Dr H. M. Finniston 66
The Editor talks to Sir John Baker 274

METALLURGY

Weldability and toughness of maraging steel, by N. Bailey 1
Apparent diffusivity of hydrogen in multi-run metal arc weld deposits, by O. Odegard, et al. 47
Sulphur transfer during welding, by A. P. Bennett 47
Welding and fracture initiation in QT low alloy steels, by R. E. Dolby 99
Preliminary examination of the strength and fracture toughness of welded HY130, by N. Bailey 104
Metal transfer from coated electrodes, by W. G. Essers, et al 151
Hydrogen movement in weld metals – Part 1: Removal of hydrogen from artificial voids, by Mrs. J. Moreton, et al. 185
Correlation of weld metal hydrogen content with HAZ embrittlement, by G. M. Evans and N. Christensen 188

Hydrogen movement in weld metals, by Mrs. J. Moreton, et al. 223
Implant testing – effect of steel composition and hydrogen level, by G. M. Evans and N. Christensen 263
Mechanical properties of explosively-cladded plates, by S. K. Banerjee and B. Crossland 268
Nitrogen absorption and porosity in CO_2 arc welding of mild steel, by J. E. O'Brien and M. F. Jordan 299
Effect of welding and post-weld heat treatment on QT35 steel, by E. Smith and R. L. Apps 303
Determining critical crack opening displacement for the onset of slow tearing in steels, by P. Terry and J. T. Barnby 343
Weld decay in AISI 304 stainless steel, by T. G. Gooch and D. C. Willingham 366
The transfer of metal from coated electrodes, by J. F. Lancaster 370
Fracture initiation in universal beams, by E. Banks 438

MISCELLANEOUS

The Welding Institute in action – Welding progress 1946-1971 199

PROCESSES

Welded pressure vessels from forged pieces – Part 1, by E. H. Watson 6
Application of magnetic fields to arc welding, by A. E. Guile 10
Welding in Italy, by M. Page 12
Formulation of a basic flux coating for an experimental 2Cr:Mo electrode, by T. Boniszewski 18
Welded pressure vessels from forged pieces – Part 2, by E. H. Watson 69
Diffusion bonding, by P. Wiesner 91
Thermal analysis for basic friction welding, by T. Rich and R. Roberts 93
Submerged arc welding of higher tensile steels, by W. Cole and P. Colvin 131
Monitoring slow crack growth, by R. F. Lumb and P. Winship 135
The metal arc welding of cast iron for maintenance and repair welding, by C. Cookson 179
Crack arrest properties of carbon-manganese structural steels: Part 1, by J. Lessells and J. Leggett 193
Crack arrest properties of carbon-manganese structural steels: Part 2, by J. Lessells and J. Leggett 266
How explosive peening affects fatigue properties in maraging steel, Fortiweld, and an Al:Zn:Mg alloy, Part 1: Experimental details and results, by M. D. Chadwick 374
How explosive peening affects fatigue properties in maraging steel, Fortiweld, and an Al:Zn:Mg alloy, Part 2: Physical effects and mechanism of explosive peening, by M. D. Chadwick 413
A digitally controlled system for TIG welding, by E. Charlesworth 443
Roll and roller rebuilding in the United States, by W. Foley 447

SPECIAL FEATURE: METALLIC INERT GAS WELDING

Selecting gas mixtures for MIG welding, by G. R. Salter and S. A. Dye 230
Review of MIG application areas and a look at the future, by M. Page 233
Check your gas feed economics, by P. J. Preece 236
Specialised market success shows way for future MIG developments, by R. W. Sawtell and E. P. Barrett 240
MIG welding trends – one knob machines 242
Keep cables off the floor and save costs, by M. Page 243
MIG welding – automation and mass production problems, by B. H. E. Farrell 246
Automatic MIG welding of three dimensional seams, by D. Varga 247

SPECIAL FEATURE: SCOTLAND – A NEW INDUSTRIAL CHALLENGE

Progressive attack made on fabrication costs 333
Linwood car complex is one of Europe's most modern 335
More emphasis placed on exports 336
Steady demand for mining machinery 338
Accent on exports 339
A four-year success story 340
Precision and forsight at Alloa 340
Wholly Scottish organisation holds strong marketing position 342

SPECIAL FEATURE: RESISTANCE WELDING

Trends in stud welding, by M. Page 398
Capacitor discharge stud welding, by G. Littleford 399
Mechanising the stud welding process, by C. H. Meader 401
Improved flash welding control system, by P. Hunter Gordon and R. G. Forbes 403
Moving towards the automatic factory, by M. Page 405
Words of advice on seam welding zinc-coated steels, by F. J. Ganowski, et al. 406
Value engineering and mechanised resistance welding, by J. W. Cockle 408
Maintenance of resistance welding machines, by H. W. Shurley 410
Low cost multi-weld 412

STANDARDS

Specifications for high strength steels in Japan, by H. Kihara, et al. 27

WELDING SHOP

An introduction to solders and soldering, by R. S. Strauss and G. Pascoe 74
Mechanising the brazing process, by P. M. Roberts 309
A practical approach to the construction of a fusion welded boiler drum, by J. Barnett 449

INDEX TO AUTHORS

AICHELE, G.
277 Economic efficiency – terms, criteria, requirements
APPS, R. L.

INDEX TO PLANT AND EQUIPMENT

ACCESSORIES

Solid state MIG wire feed controls (Rowen-Arc Ltd) 44
Weld feeder for shop and site (Welding Alloys Ltd) 89
Soldering iron cover (Solderstat Ltd) 90
Flash removing machine (Burflux Ltd) 129
Drill stands (Wolf Electrical Tools Ltd) 129
Lightweight manipulator (Courtburn Positioners Ltd) 130
Miniature actuator (F. Hurschmann Ltd) 130
Flexible draft machine (B. O. Morris Ltd) 130
Quick action toggle press (F. Brauer Ltd) 130
Gas cylinder trolley (Hudswell Badger)td) 144
Weld flash stripping machine (Burflex Ltd) 175
Grinder dust collector (Harvey Fabrication Ltd) 178
Scarfing blowpipe (British Oxygen Co. Ltd) 178
Air hydraulic clamps (Athos Ltd) 297
Airless injection systems (Graco Ltd) 297
Welding and cutting blowpipe (British Oxygen Co. Ltd) 298
Plasma welding gas (British Oxygen Co. Ltd) 361
Rotachart (Solbraze Ltd) 361
Beam welding positioners (Wagner Products Ltd) 361
Powder deposition torch (Dewrance Metals Ltd) 362
Bench turntable (Roturn Ltd) 362
MIG welding guide (Murex Welding Processes Ltd) 395
Submerged arc flux (Henry Wiggin and Co. Ltd) 432
Lightweight wire feeder (Welding Alloys Ltd) 432
Regulator for argon and CO_2 (British Oxygen Co . Ltd) 466

CUTTING

Cutting group established (British Oxygen Co. Ltd) 88
Cold sawing machine (Trennjaeger) 178
Cold saw (Trennjaeger) 297
Thin material drill (G. and J. Hall Ltd) 330

ELECTRODES

Package for tool reclamation (Oerlikon Electrodes Ltd) 46
Welding dissimilar steels (Oerlikon Electrodes Ltd) 176
Improved electrode flux (Oerlikon Electrodes Ltd) 298

GAUGES

Hand held strain gauge (GEC) 221
High temperature strain gauge (CEGB) 432

GRINDING

Grinding and cut-off wheels (Oerlikon Electrodes Ltd) 178
Mini grinder (A.T.A. Grinding Processes Ltd) 222
Coolant for grinding 298
Abrasive disc (August Rueggeberg) 330
Silent sander 362
Magnetic drill press 432
Angle grinder 466

INSTRUMENTATION

Automatic sheet monitor (Thomas Mercer Ltd) 44
Finer temperature control (Torvak Ltd) 175
Sorting bridge (Wells-Krautkramer Ltd) 175
Electron microscope (Perkin-Elmer Ltd) 221
Clear Sighting (Torvak Ltd) 222
Universal strain indicator (Graham and White Instruments Ltd) 297
Ferrite content meter (Wells-Krautkramer Ltd) 298
Profit calculator (Instant Calculators Ltd) 330
Accurate weld timing (British Federal Welder and Machine Co. Ltd) 362
Specimen preparation (Krestalap Ltd) 395

LIFTING TACKLE AND CRANES

'U' type crane kits (Acrow Crane and Hoist Ltd) 88

Easy lifting (Kelvin Engineering Ltd) 88
Electric hoist (Herbert Morris Ltd) 330

MISCELLANEOUS

UNESCO opts for Etchells (David Etchells [Machinery] Ltd) 45
Industrial trailers off-the-shelf (MAFI [UK] Ltd) 45
Hydraulic slew (James Cranes Ltd) 89
Vacuum pump range extended (Blazers High Vacuum Ltd) 90
Copper aluminium welding cables (Greengale and Irwell Rubber Co. Ltd) 129
Fault phone (Shorrock Developments Ltd) 175
Rolling shutters for crane opening (John Booth & Sons [Bolton] Ltd) 222
Tube bending machines (Selson Machine Tool Co.) 262
Hollow sections solve spill problem (BSC Tubes Division) 298
Standards for analysis of hydrogen in steels (The Welding Institute) 361

NON-DESTRUCTIVE TESTING

Ardrox Magnetic inks (Ardrox Ltd) 46
Modulator ultrasonic flaw detector (Ultrasonoscope Co. Ltd) 129
Magnetic inks upgraded (Burmah-Castrol Industrial Ltd) 176
Dynamic crack detector (Teledector Ltd) 221
Automatic NDT crack detector (Wells-Krautkramer Ltd) 221
Magnetic crack detector (Sonatest Ltd) 361
Flame spray gun (Metco Ltd) 394
Ultrasonic flaw detector (Wells-Krautkramer Ltd) 432
Fluorescent penetrant (Burmah-Castrol Industrial Ltd) 466

SAFETY EQUIPMENT

Fume dispersal unit (Harvey Fabrication Ltd) 129
Safety products (Bells Asbestos and Engineering Ltd) 177
Dual purpose power press guard (J. P. Udal Ltd) 177
Welders safety mat (British Oxygen Co. Ltd) 361
Arc air fettling bench (Midac) 362

STEELS AND ALLOYS

Plastic coated steel (H. C. Siddens and Co. Ltd) 88
Heat resisting alloys (Henry Wiggin and Co.) 130
Plastic coated steel (Cape Universal Building Products Ltd) 221
Copper tin filler wire (Royal Naval Scientific Service) 298
Powder welding alloy (Dewrance Metals Ltd) 361
Hardfacing alloy (Stubs Welding Ltd) 394

SURFACING

Hardening by torch (F. Pratt and Co. Ltd) 44
Package for tool reclamation (Oerlikon Electrodes Ltd) 46
Plasma coatings (Associated Engineering Developments Ltd) 174
Fast high quality metallising (Wall Colmonoy Ltd) 222
Hardfacing alloys (Stubs Welding Ltd) 466

TESTING EQUIPMENT

Weld bend test (Roe-Vick Ltd) 46
Portable hardness tester (Gresham Instrumatic Ltd) 90

TREATMENTS

Spatter release agent (Acheson Colloids Co.) 44
Industrial abrasive sponge 44
Eliminates H_2 embrittlement (Metadalic Ltd) 176
Anti spatter paste (Programme International Mfg Co. Ltd) 466
Inductive stress relieving (Brown Boveri Ltd) 466

WELDING MACHINES

Bansaw flash butt welders (Sandford-Brysson Ltd) 45
TIG units for navy (Union Carbide Co. Ltd) 45
New low prices MIG package (Hobart Ltd) 46
Semi-automatic welding (American Westhouse Ltd) 88
E.S. welds in heavy sections (Hobart Ltd) 89
MIG for Al steel (Welding Controls Ltd) 89
Powder welding torch (Stubs Welding Ltd) 129
Integral transformer welding guns (Constructions Europeennes de Soudage) 130
MIG for smaller firms (Ferrous Transformers Ltd) 174
Heavy duty spot welder (British Federal Welder and Machine Co. Ltd) 174

Low cost semi-automatic MIG/CO_2 (Hobart Ltd) 174
Bushless a.c. alternator (Max Arc Ltd) 222
Structural 'T' welder (AMF Thermatool Inc) 262
MIG for small firms (Ferrous Transformers Ltd) 262
Deflashing machine (Burflex Ltd) 297
Modular production/seam welder (British Federal Welder and Machine Co. Ltd) 330
Series spot welder (Steelweld Ltd) 330
MIG welding power source (Rowen-Arc Ltd) 362
MIG for medium duty (Rowen-Arc Ltd) 394
Mark 1 EBW improved (Wentgate Engineering Co Ltd) 394
Miniature welding torch (Microflame [UK] Ltd) 394
High frequency unit (Roturn Ltd) 394
Linear welding head (Hurst Electric Industries Ltd) 395
Engine-driven welder (Hobart Overseas [GB] Ltd) 395
Automatic bench welders (Portable Welders Ltd) 432

INDEX TO SUBJECTS

BRAZING AND SOLDERING

74 An introduction to solders and soldering
118 Brazing precious and refractory metals
309 Mechanising the brazing process
433 Association between service failures to fillet profiles of tube stub-header weldments

BRITTLE FRACTURE

1 Maraging steel
61 Fatigue pre-cracking weldment fracture mechanics specimens
99 Welding and fracture initiation in QT low alloy steel
104 Strength and fracture toughness of welded HY130
193 Crack arrest properties of carbon-manganese structural steels
266 Crack arrest properties of carbon-manganese structural steels
343 Determining critical COD for the onset of slow tearing in steels
438 Fracture initiation in universal beams

CHEMICAL ANALYSIS

18 Flux coating for 2Cr:Mo electrode
47 Diffusivity of hydrogen in multi-run deposits
49 Sulphur transfer during welding
185 Hydrogen movement in weld metals
223 Hydrogen movement in weld metals
263 Implant testing effect of steel composition and hydrogen level
299 Nitrogen absorption and porosity in CO_2 arc welding of mild steel

CONSTRUCTION

140 Flowline builds tunnel tubes
205 Lamellar tearing in bridge girders
210 Two sea-going drill rigs
319 Cutting and forming precise bifurcations
331 Scotland – a new industrial challenge
333 Progressive attack made on fabrication costs
335 Linwood car complex is one of Europe's most modern
336 More emphasis placed on exports
338 Accent on exports
340 A four-year success story
340 Precision and foresight at Alloa
342 Wholly Scottish organisation holds strong marketing position
363 Finished end products is key to rapid growth
449 Construction of a fusion welder boiler drum

CUTTING

314 N-C profiling centre reduces fabrication costs
319 Cutting and forming precise bifurcations

ECONOMICS

15 Testing angle grinding discs
56 Welding economics
108 Planning resources with critical path analysis
213 Critical path analysis for cost and budgetary project control
236 Gas feed economics
377 Economic efficiency – terms, criteria, requirements
281 Process selection by economics analysis
312 Standard costing and budgetary control
348 Production control
384 Stock control
422 Incentive begins at the top
457 Incentive begins at the top

EDUCATION AND TRAINING

149 Training today
346 Training today
382 Training today
420 Training today

FATIGUE

135 Monitoring slow crack growth
188 Correlation of weld metal hydrogen content with HAZ embrittlement
268 Mechanical properties of explosively cladded plates
374 How explosive peening affects fatigue properties in maraging steel, Fortiweld, and an Al:Zn:Mg alloy
413 How explosive peening affects fatigue properties in maraging steel, Fortiweld, and an Al:Zn:Mg alloy
416 Crack initiation and growth data in the calculatio of fatigue lives of specimens containing defects

FERROUS METALLURGY

1 Maraging steel
18 Flux coating for 2Cr:Mo electrode
27 Specification for high strength steels in Japan
47 Diffusivity of hydrogen in multi-run deposits
49 Sulphur transfer during welding
99 Welding and fracture initiation in QT low alloy steels
104 Strength and fracture toughness of welded HY130
131 Submerged arc welding of higher tensile steels
151 Metal transfer from coated electrodes
185 Hydrogen movement in weld metals
188 Correlation of weld metal hydrogen content with HAZ embrittlement
193 Crack arrest properties of carbon-manganese structural steels
205 Lamellar tearing in bridge girders
223 Hydrogen movement in weld metals
263 Implant testing – effect of steel composition and hydrogen level
266 Crack arrest properties of carbon-manganese structural steels
299 Nitrogen absorption and porosity in CO_2 arc welding of mild steel
303 Welding and postweld heat treatment on QT35 steel
343 Determining critical COD for the onset of slow tearing in steels
351 Mechanical test approach for assessing susceptibility to hydrogen induced HAZ cracking
366 Weld decay in AISI 304 stainless steel

FRACTURE MECHANICS

Fatigue pre-cracking weldment fracture mechanics specimens

Welding and fracture initiation in QT low alloy steel

Strength and fracture toughness of welded HY130

Determining critical COD for the onset of slow tearing in steels

Hydrogen induced HAZ cracking

Fracture initiation in universal beams

HEAT AFFECTED ZONES

Maraging steel

Correlation of weld metal hydrogen content with HAZ embrittlement

Hydrogen induced HAZ cracking

MECHANICAL TESTING

Maraging steel

High strength steel

Fatigue pre-cracking weldment fracture mechanics specimens

Welded pressure vessels from forged pieces

Welding and fracture initiation in QT low alloy steels

Strength and fracture toughness of welded HY130

Crack arrest properties of carbon-manganese structural steels

Implant testing – effect of steel composition and hydrogen level

Crack arrest properties of carbon-manganese structural steels

Welding and postweld heat treatment on QT35 steel

Determining critical COD for the onset of slow tearing in steels

Hydrogen induced HAZ cracking

How explosive peening affects fatigue properties in maraging steel, Fortiweld, and an Al: Zn:Mg alloy

How explosive peening affects fatigue properties in maraging steel, Fortiweld, and an Al: Zn:Mg alloy

Fracture initiation in universal beams

MISCELLANEOUS

TI furnace wall tube for power station

Welding in Italy

Conference report – Weldability of structural and pressure vessel steels

Factory for fittings

Grant profile ground gears

A problem of distortion

Interview with Dr. H. M. Finniston

Steel service centre

Fabrication profile

Automatic line welds profile beams for tankers

Preview of the International Welding and Metal Fabrication Exhibition

Cost of contractors

Welding progress 1946-1971

Engineering '71 – a National exhibition

Instruct your staff

Interview with Sir John Baker

Dangerous parts

The cost of life and limb

Contributory negligence

NON-DESTRUCTIVE TESTING

135 Monitoring slow crack growth

147 Certification scheme for weldment inspection personnel: Document No. CSWIP-RAD-3-71

453 High-speed X-ray photography for submerged arc welding

PRESSURE VESSELS

91 Diffusion bonding

372 Spot welding cuts assembly line twelvefold

383 Stud welding reduces labour costs

398 Trends in stud welding

399 Capacitor discharge stud welding

401 Mechanising the stud welding process

403 Improved flash welding control systems

405 Moving towards the automatic factory

406 Seam welding zinc coated steels

408 Value engineering and mechanised resistance welding

410 Maintenance of resistance welding machines

412 Low cost multi-weld

SERVICE FAILURES

145 Steel chimney in trouble

433 Association between service failures and fillet profiles of tube stub-header weldments

SHIELDED GASES

299 Metallic inert gas welding

230 Selecting gas mixtures for MIG welding

233 MIG application

236 Gas feed economics

240 Future MIG developments

242 MIG welding trends

243 Cables – MIG welding

246 MIG welding – automation and mass production problems

247 Automatic MIG welding of three dimensional seams

299 Nitrogen absorption and porosity in CO_2 arc welding of mild steel

SPECIFICATIONS

27 High strength steels in Japan

147 Certification scheme for weldment inspection personnel: Document No. CSWIP-RAD-3-71

SUBMERGED ARC WELDING

131 Submerged arc welding of higher tensile steels

453 High-speed X-ray photography for submerged arc welding

WELDABILITY

1 Maraging steel

179 Metal arc welding of cast iron for maintenance and repair welding

303 Welding and postweld heat treatment on QT35 steel

WELDING PROCESSES AND PROCEDURES

6 Welded pressure vessels from forged pieces

10 Application of magnetic fields to arc welding

12 Welding in Italy

18 Flux coating for 2Cr:Mo electrode

52 TIG welding aids biological research

55 A problem of distortion
69 Welded pressure vessels from forged pieces
93 Thermal analysis for basic friction welding
99 Welding and fracture initiation in QT low alloy steels
112 Fume extraction when welding zinc coated steels
131 Submerged arc welding of higher tensile steels
151 Metal transfer from coated electrodes
179 Metal arc welding of cast iron for maintenance and repair
229 Metallic inert gas welding
230 Selecting gas mixtures for MIG welding
233 MIG application
236 Gas feed economics
240 Future MIG developments
242 MIG welding trends
243 Cables – MIG welding
246 MIG welding – automation and mass production problems
247 Automatic MIG welding of three dimensional seams
299 Nitrogen absorption and porosity in CO_2 arc welding of mild steel
303 Effects of welding and postweld heat treatment on QT35 steel
370 Transfer of metal from coated electrodes
433 Association between service failures and fillet profiles of tube stub-header weldments
443 A digitally controlled system for TIG welding
447 Roll and roller rebuilding in the United States
449 Construction of a fusion welded boiler drum
